THE WINE

Soaring with aromas of red berries and macerated cherries, a thrilling expression of Garnacha & Cariñena that personifies its name, "The feeling of flying". The fruit pops with structure on a lively mouthfeel, with subtle tannin and nuances of rosemary, violets, and tar.

THE WINERY

Josep Grau Viticultor is a family project located in the municipality of Marçà en the D.O. Montsant. Josep Grau is the winemaker and owner of the winery and currently oversees 26 hectares of vineyards with various soil types at different locations in the D.O. From pruning to harvest, all the labor in the vineyards is done by hand. The viticulture is organic, and herbicide and pesticide free. The main objective is to take the fruit, along with all its natural characteristics, from the vine to the bottle. The winery works with indigenous yeasts and minimum levels of sulfites, to ensure the maximum protection of the wine.
