Bodegas Adriá (Villafranca del Bierzo)

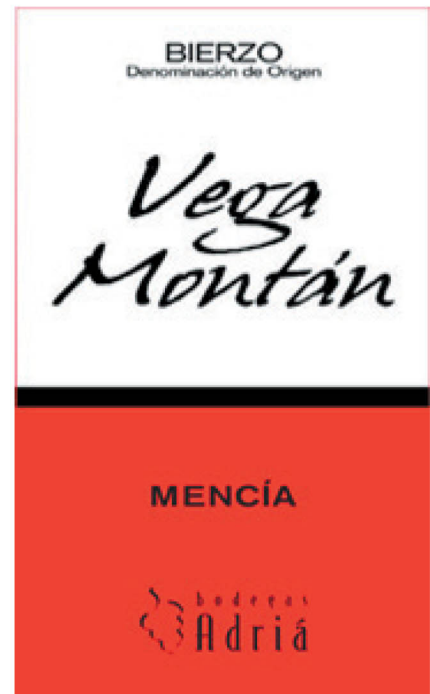

Denominación de Origen: El Bierzo

Bodegas Adriá was constituted in its present form in 2002, marked by the construction of a modern facility for the production of highest quality Bierzo wines. Adriá's roots date to 1940 and the founding of Bodegas Francisco Pérez Adriá by a native of Valencia who had fallen in love with Bierzo wines. The original bodega, dedicated to the production of bulk wines, exists side by side with the new on the outskirts of Villafranca del Bierzo along the pilgrimage route to Santiago de Compostela.

Bodegas Adriá possesses fifty acres of vines between eight and twenty years old, the majority planted to the white Godello, a noble variety that is locally scarce. Mencía grapes from old vines in the best hillside regions are also contracted, subject to rigorous selection and qualification upon arrival to the bodega.

Wines are fermented with their natural yeasts under temperature control, seeking maximum fruit intensity and flavor extract.
